**Passage one: Read the following passage and mark the correct choices.**

Sasakura Engineering introduces the Sasakura Pre-Treatment (SPT) unit, for use on board ships. Bilge water, the water that collects in a ship's hold, is so full of oil and sludge that it must undergo preliminary treatment before it can be purified. The conventional machine for this purpose relied on gravity to do most of the work on particles in the water, but the SPT unit makes unprecedented use of what is known as the air-bubble floatation technique. A diffusing mechanism introduces bubbles in to the water. As they rise, they collect oil and sludge, bringing it to the surface. The new machine is smaller, and its process less time-consuming, than the conventional one. Moreover, it can be operated continuously and requires no maintenance.

40-We can infer from the passage that.....

- 1. water must not collect on board ships
- 2. sludge is added to water before it is used
- 3. sea water must be purified before it is used
- 4. bilge water is healthier than a purified water

41-According to the passage.....

- 1. SPT is better than conventional water treatment machines
- 2. air-bubble floatation technique is not modern
- 3. oil and sludge are necessary for board-ship water
- 4. SPT is not as fast as other water treatment machines

42-The word introduce in the first line should mean.....

- 1. bring something in to use for the first time
- 2. make somebody known to someone else
- 3. make something clear
- 4. give details of something

1. money paid as salary
2. keeping something in good condition
3. costs and expenses of a machine
4. power and energy

**Passage two: Read the following passage and mark the correct choices .**

" I have no pockets," says Maharishi Mahesh Yogi, founder of the huge, world wide organization that teaches Transcendental Meditation: " I deal in wisdom, not in money." He is a tiny man, with a scraggly beard, long messy hair, and a voice played at 78 rpm. " Every one's best friend," he is a vegetarian, takes no drugs, is celibate.

Because he is a monk, he feels he is " not expected" to think of his past. But he has one. Born the son of an Indian forest ranger, he graduated in 1942 at the age 24 from Allahabad University, but instead of pursuing a career in his major (physics), he became a disciple of religious leader Swami Brahmananda Sarawati (Guru Dev) and was with the guru until he died about 13 years later. The Maharishi was left, according to legend , with the job of developing a form of meditation for the common person. The result which he announced after two years of seclusion in the Himalayas, was Transcendental Meditation ( or T.M). The Maharishi first taught T.M. in India, then brought it to the west, where there were " people who are in the habit of accepting things quickly" and where he soon hooked in to the western technology and the mass media.

In 1963 the Maharishi's book The Science of Being and Art of Living was published. since then a large number of T.M. books have appeared. Among thoes recommende by the Maharishi is The T.M. Book: How to Enjoy the Rest of Your Life (1975) by Denise Denniston and Peter Mcwilliams.

His adherents have included Stevie Wonder, Peggy Lee, the Beach Boys, and Joe Namath. Between 1961 and 1972, more than 100,000 people became meditators. By 1975 the organization had branches in89 countries, with nearly 400 centres in the U.S.

44- According to the passage, Maharishi Mahesh Yogi.....

1. was an extremely poor person
2. did not feel any need for money
3. kept his wisdom in his pockets
4. was a little crazy person

45- The Maharishi.....

1. had received formal education before becoming a monk
2. received his formal education after he became a monk
3. received his education through religious connections
4. lost all his wordly knowledge when he became a monk

46- Transcendental Meditation was.....

1. an invention of western education
2. taught by maharishi
3. the source of maharishi's income
4. an invention of the Hmalayas
