*Fill in the blanks with the most appropriate word.*

Why use models? There are many conceivable reasons why one might prefer to ....F... with a substitute for a "real thing" rather than with the thing itself. Often the motivation is economic to save money, time or some valuable ...G..... . Sometimes it is to avoid risks associated with the ...H..... of a real object. Sometime the real environment is so complicated that a/an .....I..... model is needed just to understand it or to communicate with others about it. Such models are quiet .....J..... in the life sciences, the physical sciences, and engineering.

21-F:

- |          |         |          |            |
|----------|---------|----------|------------|
| 1. Solve | 2. deal | 3. apply | 4. confuse |
|----------|---------|----------|------------|

22-G:

- |             |                |              |             |
|-------------|----------------|--------------|-------------|
| 1. solution | 2. preliminary | 3. commodity | 4. sequence |
|-------------|----------------|--------------|-------------|

23-H:

- |               |               |               |              |
|---------------|---------------|---------------|--------------|
| 1. performing | 2. optimizing | 3. Collecting | 4. tampering |
|---------------|---------------|---------------|--------------|

24-I:

- |         |              |               |                   |
|---------|--------------|---------------|-------------------|
| 1. real | 2. objective | 3. derivative | 4. representative |
|---------|--------------|---------------|-------------------|

25-J:

- |           |              |              |             |
|-----------|--------------|--------------|-------------|
| 1. simple | 2. prevalent | 3. suggested | 4. specific |
|-----------|--------------|--------------|-------------|

**Find the best Persian equivalent of the following terms:**

26-Remuneration:

- |                   |                    |                   |                |
|-------------------|--------------------|-------------------|----------------|
| 1. سیستم ارزشیابی | 2. سیستم پاداش دهی | 3. سیستم استخدامی | 4. سیستم توزیع |
|-------------------|--------------------|-------------------|----------------|

27-commonality:

- |          |           |          |           |
|----------|-----------|----------|-----------|
| 1. تبعیت | 2. مشارکت | 3. تشابه | 4. معمولی |
|----------|-----------|----------|-----------|

28-fluctuation:

- |          |           |          |           |
|----------|-----------|----------|-----------|
| 1. توالی | 2. گسستگی | 3. نوسان | 4. انفجار |
|----------|-----------|----------|-----------|
